## Corel PAINTER 11 RELEASED-

### Digital painting software

Corel® Painter™ 11 is the ultimate digital art studio for anyone ready to expand their definition of creativity. Working with the most advanced digital painting and natural media tools available, you can create the art you've always envisioned.

### Overview

Corel® Painter™ is the world's most powerful Natural-Media® software.

**Expand your creativity with Painter 11**, the most inventive digital painting software on the market. By adding Painter to your workflow, you gain a full art studio that gives you the tools to create unprecedented artwork. Digital art tools let you experiment with color theory, composition and brush strokes, without the toxins, mess and expenses associated with traditional art.

Support for the entire Wacom® product line, including industry-leading Cintiq® interactive pen displays and Intuos® drawing tablets, gives you the most responsive digital painting experience so your hand and brush work fluidly as one.

Customizable paper textures give your art added artistic undertones, plus a level of texture and detail that no other digital painting or photo-painting tools can produce. Painter is changing what's possible in art. **Now it's your turn.**

### Enhance the Creative Process

Enhanced Artistic Media reproduce the texture of their real-life counterparts and intensify color with each stroke. Pen and drawing tablet (recommended), combined with Painter's RealBristle™ brushes, recreate the natural interaction between hand and canvas. New Hard Media Controls let you create your own hard media variants, or choose from new hard media variants in the Brush Library. Go Beyond the Digital Darkroom: Improved color recognition for files imported from Adobe® Photoshop®, and individual color profiles per document, make your colors more precise. Photo-painting tools with SmartStroke™ technology let you creatively transform reality.

Customizable surface texturing gives your art a level of fantasy and detail that other photo and painting software can't deliver.

*more in next months magazine*

The Committee meets 1st Tuesday of each month at CIDA Design Office  
25 Belinda Crescent Wheelers Hill - Ph: 03 9560 6777 - 7 to 9.30 pm

Next CDU Meeting for will be held  
on Tuesday 16 June 2009.

# COREL Digital Art Competition 2009

*Get creative. Show us what you've got!*

## Welcome to the Corel 2009 Asia-Pacific International Digital Art Competition.

**This contest gives you the opportunity to express your creativity using Corel software to bring your unique designs to life.**

The Corel Digital Art Competition 2009 is open to entries from the Asia Pacific region. The contest brings together designers, enterprises and organizations for communication and to provide international exposure for today's up-and-coming artists.

### Submission Period

Entries may be submitted at the contest Website until May 31. Vote for your favorite entries at any time.

### Judging

The judging period for entries is from 1st - 30th June 2009.

### Announcement of Winners

Winners will be announced on July 1st.

Winning entries will be posted on the contest web site.

### Objectives

Encourage and cultivate talented individuals who use Corel software for creative expression. Promote the use of creative software in art education, to realize the goal of digital art creation.

Enable people from different cultures to exchange ideas and broaden their perspectives on design and creativity.

### Theme - 'Freedom to create your way'

Use your creativity in graphic design or video editing to promote your concept, whether it is a product, service or just an idea.

### Catagories -

#### Graphic Design

Including any creative graphic, illustration, package design, poster, advertisement, drawing, etc.

(Eligible Software: CorelDRAW®, Painter™, Painter™ Essentials, PhotoImpact®, Paint Shop Pro®)

## 'Words' used in the Printing Industry that begin with G and P!

**Grammage (GSM)** - Grams per square metre. The term used to denote the weight of paper or board. Literally the weight of a piece of paper! An A0 sized sheet is defined as exactly one square metre.

**Grain** - Direction of fibres in a sheet of paper governing paper properties such as increased size changes with relative humidity; across the grain; and better folding properties along the grain.

**Gigo** - Garbage in; garbage out.

**Gutter** - Space between pages in the printing frame of a book; or inside margin towards the back or binding edge. The blank space or margin between the type page and the binding of a book.

**Pica** - Printer's unit of measurement used principally in typesetting. One pica equals approximately 1/6 of an inch.

**Point** - Printer's unit of measurement, used principally for designating type sizes. These are 12 points to a pica, approximately 72 points to an inch.
